## Friday May 2

**8:45h.** Our group will leave Calella towards Barcelona by bus.

**10:00h.** Horta maze's park visit

There is no doubt that this park is the green jewel of the Barcelona. It was designed in 1792 by the Italian engineer Domenico Bagutti, as an initiative of the owner of the estate Joan Desvalls, the Marquis of Llupià and Alfarràs.

This is Barcelona's oldest garden and a matchless example of artistic gardening. The marquis's descendants extended the grounds with the addition of a romantic garden with flower beds, small squares, tall trees and a waterfall according to the widespread taste for neo-classical gardens at the time, although the park's woodland setting give it

that romantic touch. The grounds are full of hidden corners to be discovered, some of them decorated with sculptures of mythological figures. The park takes its name from the maze, created from pollarded cypress trees.

Then we will move to the Tibidabo mountain, (10 minutes by car), where we will spend the rest of the day.

The access to the top of the mountain is by a funicular. (A long staircase is also available for the bravest), and we will visit a impressive church called «Esglesia del Sagrat Cor», The Tibidabo amusement park and the Automata museum.

The Tibidabo Amusement Park has an area of approximately 70,000 m<sup>2</sup> and stands out for its privileged location as a viewing point for Barcelona. In addition, it is the oldest operating amusement park in Spain, the third oldest in Europe and one of the oldest in the world.

The Museum of Automata houses around fifty pieces from around the world, the oldest of which is called The Mandolinist Clown, dating from 1880.

The museum is listed as the most important in this field, as it is one of the few in which you can see the automata working continuously.

And don't worry, we haven't forgotten lunch. There is also a historic restaurant on Tibidabo, famous for its special menu based on "montaditos", drinks and desserts. It sounds like an interesting experience. Why not try it?
